

# Product

## Seamless rolled / forged ring

# Application

## Pellet Die / Roller Shell (Pellet Press)

Source: Graif

### STEEL GRADES

- X46Cr13
- X55CrMoV15
- 20MnCr5
- 34CrNiMo6
- C45
- 35NCD16

### DIMENSIONS

- OD 200 - 4,000 mm
- W 10 - 4,000 kg

### EXECUTION

Seamless rolled or forged (partly profiled if required), specialised soft annealing process ( $1.4034 < 190 \text{ HB}$ ) or any other heat treatment depending on steel grade, with or without machining

### REMARKS

- Min. quantity 1 pc
- Own steel production plant

### INDUSTRY FOCUS

### MECHANICAL ENGINEERING AND PLANT CONSTRUCTION\*

\*The dies are used for the manufacture of animal feed pellets and for energy/heat production (wood/waste pellets)
